

Running Mocha Wan under Windows Vista with lan/wan capture facilities

Mocha Wan has been tested and works under

Windows Vista Home Premium
Windows Vista Business

NOTE: You will need to set compatibility and privilege settings.

1. MOCHA_APPLET

To allow the Mocha Applet and Mocha_E1 applets to work with under VISTA, you must set up Mocha_Applet compatibility settings.

Do this by:

Right Click on the Mocha_Applet (or Mocha_E1) icon or shortcut to show the Properties Page
Click to show the Compatibility Tab
Tick the box to Enable Run this program in compatibility mode for
And select **Windows XP (Service Pack 2)**

***You can now run Mocha_App to change Wan protocols,
and run Mocha_E1 to select channels!!!***

2. OMNIPEEK

To allow OmniPeek to work with installed Lan and Wan adapters, you must run OmniPeek with Administrator privileges.

Do this by:

Right Click on the OmniPeek icon or shortcut to show the Properties Page
Click to show the Compatibility Tab
TICK the box Run this program as an administrator box

You can now run OmniPeek with lan/wan capture facilities!!!!
